patient = 200 lbs  
max gal x 8.34 lbs/gal  
Total Max Birth La Bassine with 200lb patient =  
1656 lbs Original / 1656 lbs Maxi

### Birth Pool Features

- **Cocoon like shape** and **Purple** color to enhance the sense of privacy and induce deep relaxation.
- **Deep, 3" inflated floor**, to give the extra comfort needed during active birth positions such as kneeling and squatting.
- **Transparent sides**, to give midwives good visibility from outside the pool.
- **Perfect water depth** that fully covers your belly without being too deep that you feel insecure.
- **Four solid internal handles**, perfectly placed, exactly where you need them! Use to assist in position changes, or to grab on to while you push.
- **TWO TOP HANDLES** for assistance when getting in and out of the pool.
- **OUR MAXI POOL has three separate chambers! If one chamber were punctured, water would be retained by the other two.**
- **Eco-Friendly Vinyl, Carbon Neutral and Ethically Manufactured** – Highly durable vinyl that does not contain any phthalates, lead or cadmium so often used in plastic production. Made in Water Ltd has made a donation to the World Land Trust Carbon Balanced Fund to offset the carbon footprint incurred producing and shipping La Bassine. All our manufacturers are independently audited to ensure safe and fair employment practice.
- **Quality and Durability** – Made with Super-Strong Vinyl, each birthing pool is factory tested.
